

About this wine list ...

Female winemakers have the reputation to make sensitive and powerful wines, people say they understand the terroir.

Being a woman in a world dominated by men is not easy, and choosing a job dominated by men is quite risky too.

I admire all girls who challenge the society to do the same, this is why this wine list is female oriented, I'm not a feminist warrior just a girl who wants to respect the parity.

I would say, just go, try and judge by yourself!
